

Duration: 1 day

This Premiere Pro course serves as an introduction to the world of video editing. Delegates on this course will learn how to use Premiere Pro as a non-linear video editor. By the end of this course delegates will be able to find their way around Premiere Pro and produce videos.

Key Topics

- Understanding your Premiere Pro workspace
- Importing and managing assets
- Using media bins and using the media browser
- Adding, moving, and editing clips on the timeline
- Using the source monitor
- Using audio, keyframes and audio transition
- Using video transitions
- Finetuning a transition
- Adding video and lighting effects
- Using nested clips
- Changing the playback speed of video clips
- Exporting video for different purposes
