

Management of Risk

ClearCut
IT TRAINING

Duration: 2 days

Who should attend: Anyone working in a risk environment, Project Sponsors, Project Managers, Risk Owners, Risk Framework developers.

Aims: This 2-day workshop provides an information-packed look at all aspects of Risk Management. Delegates learn about various Risk Management practices. Delegates will also learn how to avoid common pitfalls in applying Risk Management techniques. The workshop combines presentation, discussion, and some lively interactive exercises using a case study.
